How the American Cancer Society Is Saving Lives

Together with millions of supporters, the American Cancer Society saves lives by helping people stay well and get well, by finding cures, and by fighting back.

Stay well: They help people take steps to prevent cancer or find it at its earliest, most treatable stage.

Get well: They are available around the clock to help people through every step of their cancer experience.

Find cures: They fund and conduct research that helps us better understand, prevent, and find cures for cancer.

Fight back: They work with lawmakers to pass laws to defeat cancer and rally communities worldwide to join the fight.
