This is the first in a yearlong series of DCCB programs woven together under the theme of the 70th anniversary of Aldo Leopold's book, *A Sand County Almanac*. Who was Aldo Leopold? What concepts did he share 70 years ago that are still so relevant in today's world? This program will help the audience to come to know Aldo and his writings by way of the award winning documentary film *The Green Fire*. Following the viewing and a discussion, DCCB will kick off its Leopold Bench Project. *Registration is required for this free program.*

Lunar Eclipse

Sunday, January 20, 9:00 p.m. @ Kuehn Conservation Area

On the full moon eve watch the big dog wander into the skies and eat the moon! Not buying that explanation for a lunar eclipse? Then join us for an examination of the astronomical conditions that result in a disappearing act by ol' Luna. Once we figure out what is going on in the sky, we can wander out into the dark night at Kuehn to view the show of the 2019 Lunar Eclipse. *Registration is required for this free program.*

Trumpeter Swan Soiree

Saturday, January 26, 10:30 a.m.—2 p.m. @ Walnut Woods State Park, Des Moines

This event celebrates North America's largest waterfowl species at the Blank Park Zoo Friday evening and at Walnut Woods State Park on Saturday. Saturday programs will be given both indoors and outdoors with concurrent outdoor viewing and interpretive presentations of trumpeter swans and bald eagles given by Iowa Department of Natural Resources and Polk and Dallas County Conservation naturalists. Spotting scopes and binoculars will be provided. Hundreds of trumpeter swans winter at the Dale Maffitt Reservoir and surrounding area southwest of Des Moines, providing a rare opportunity to view good numbers of free flying trumpeter swans. *Free, no registration required.*

Bird Watching Basics

Sunday, January 27, 1—3 p.m. @ Forest Park Museum

Are you looking for a new and exciting way to connect with nature? Dallas County citizens may be surprised at the number of different bird species that exist within the area. We have diverse habitats and unique geographic features that are attractive to many varieties of birds. DCCB staff is partnering with Dallas County citizens to document as many different kinds of birds within the county for the year 2019. In the birding community this is known as a Big Year. Come learn the basics to identifying birds through field marks, behavior, and calls to help take the mystery out of backyard birds. We will be looking for live birds as well. Birds are pretty, usually abundant, and you never know when you might see something unexpected. A great hobby for people of all ages and a fun social activity that connects across generations. Be a part of the 2019 Dallas County Big Year Birding Challenge. *Registration is required for this free program.*

Forest Park Museum Exhibits

There are new sights to see and sounds to hear at the Forest Park Museum. Brand new audio displays are being installed highlighting Dallas County inventor Henry Nelson, the Des Moines Valley Rail Road, and family farming. Additionally, the Iowa Association of Naturalists Traveling Tallgrass Prairie Exhibit is now up for viewing. The display showcases the plants and animals of the prairie, along with information on prairies past, present, and future. Interactive displays and touch tables make the Forest Park Museum an experience for the whole family.
